<b>Office Action Summary</b>	<b>Application No.</b> 10/601,014	<b>Applicant(s)</b> CARL ET AL.	
	<b>Examiner</b> DAVID COMSTOCK	<b>Art Unit</b> 3733	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Claim Objections***

Claims 91 and 92 are objected to because of the following informalities: The status identifier for claim 91 indicates that the claim has been amended but there are not any amendment markings therein. Appropriate correction is required.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 34-38, 73-79 and 91-100 are rejected under 35 U.S.C. 102(b) as being anticipated by Steffee (4,790,303).

Steeffee discloses the claimed invention including implanting arcuate implant members, e.g., 50, 52 to extend between adjacent vertebrae (see, e.g., Figs. 4-6 and col. 1, lines 22-61). Each arcuate member lies in a plane as it extends between the adjacent vertebrae. The arcuate members are formed from metal (see, e.g., col. 2, lines 39-42). End portions of the arcuate members are configured to be secured to a securing mechanism, e.g. 70, 72. The arcuate members rotate about their own axis of curvature as they are implanted in the vertebrae.

***Allowable Subject Matter***

Claims 60-63 and 80-90 are allowable over the prior art of record.

***Response to Arguments***

Applicant's arguments filed 06 February 2009 have been fully considered but are not fully persuasive.

The implant members at least "correspond" (e.g., at least generally relate) to the arcuate path defined in the vertebrae. As such, the amendment setting forth this additional limitation is insufficient to overcome the outstanding rejection.

***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
